## REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed towards a server based system for classification of images as pornographic, copyrighted or otherwise graphically-offensive material. Each independent claim variously identifies the uniquely distinct feature “ for automatically analyzing the images using a plurality of independent review engines for a plurality of criteria for analyzing results from said plurality of independent review engines of said images into a single parameter representing a likelihood value that an image is of pornographic, copyright or otherwise graphically offensive material”. The closest prior art, Bradshaw et al. (US 6,065,065), disclose a method for blocking the use and creating of vulgar and pornographic material in a responsive and interactive matter that comprehensively monitors computer operations for creation or transmission of vulgar and pornographic material, while Mc Gee et al. (US 6,654,067 B1), disclose finding hidden images in video based on detected proximity of cuts and Olah et al. (US 6,446,119 B1), disclose for wherein full authority of determining what type of computer usage is inappropriate or offensive to the computer operator, either singularly or in combination, fail to anticipate or render the above underlined limitation obvious.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
